Fair Practices Code - Reminder and Collection Calls

1. Calling hours

Customers may be contacted only between 8:00 AM and 7:00 PM local time, unless the customer has explicitly requested a call outside these hours.

2. Identification and disclosure

Every call must start with the caller's name, the company name (Udaan Credit Finance), the purpose of the call, and a disclosure that the call is recorded for quality and compliance purposes.

3. Identity verification and privacy

Loan details (EMI amount, due date, outstanding) may be shared only after verifying the customer with at least one identifier: date of birth or last 4 digits of the loan account.
Loan details must never be disclosed to a third party, family member or colleague.
If the person answering is not the customer, end the call politely without details.

4. Conduct

Agents must not use threatening, abusive or misleading language, must not threaten legal action that is not initiated, and must not contact the customer's references or employer about the loan. Agents must not ask for OTP, PIN, CVV or passwords.

5. Escalation

If the customer requests a human, disputes the loan, raises a complaint, or reports hardship, the call must be transferred or a callback created within 1 working day.
